The cited references have failed to teach, **“said first terminal of the condenser is connected to said gate terminal of the driver transistor, said second terminal of the first condenser is connected to an electrode to which a predetermined voltage is impressed, said switching transistor has a multi-gate structure, the gate driver circuit generates a plurality of stripe non-display areas on said display screen of the EL display panel by controlling the first switching elements in an off- state two or more times during one frame period, the gate driver circuit moves the plurality of stripe non-display areas in a scanning direction of the gate driver circuit at a cycle of one frame period”** in combination with other limitations of claim 1,

**“said first terminal of the condenser is connected to said gate terminal of the driver transistor, said second terminal of the first condenser is connected to an electrode to which a predetermined voltage is impressed, said switching transistor has a multi-gate structure, a start pulse to be input into the gate driver circuit is controlled to turn on and off said first switching element, a plurality of stripe non-display areas on said display screen of the EL display panel are generated and the plurality of stripe non-display areas are moved in a scanning**

**direction of the gate driver circuit at a cycle of one frame period”** in combination with other limitations of claim 2, and

**“said gate driver circuit turns on said first switching element to impress said image signal to said line of the pixels, said image signal is impressed to said line of the pixels after said first voltage is impressed to said line of the pixels, said line of the pixels to which said first voltage was impressed becomes a non-display area until said image signal is impressed to said line of the pixels, and said non-display area is moved in a scanning direction of said gate driver circuit at a cycle of frame period”** in combination with other limitations of claim 22.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
